Mentoring Programme

Be the inspiration

Welcome!

Today we will cover:

- What is safeguarding?
 - How we keep young people safe and your role
 - Coaching and goal setting
 - Next steps
- 

Safeguarding VS cause for concern

Safeguarding:

- disclosure of abuse
- witnessing abuse taking place
 - very rare

VS

Cause for concern:

- worrying comment or behaviour
- concerning appearance
- more common but still rare

Reporting purposes are the same for both.

What is safeguarding?

Safeguarding:

- Protecting children from harm
- Preventing damage to children's health or development
- Taking action to make sure all children have the best start in life

Child protection:

- Part of safeguarding
- Refers to the action taken to protect specific children who are being abused or who are at risk of abuse

Safeguarding

- Your responsibility is to **pass on any concerns** you may have for your mentee's safety and wellbeing.
- Your role is to **recognise** and **refer** abuse, not to investigate.

Staying Safe

Meet in a public space

Always meet in a public place and check your mentee is comfortable with the location

Do not visit homes

You should not visit a mentees home, nor should they visit your home.

Accompany your mentee

You will need to accompany your mentee to any meetings (in-person or virtual) where they are meeting contacts **without a City Lions DBS**

Email and text is okay

Please use your work mobile number if possible and stick to email where you can

Avoid lots of messages

Mentoring sessions should not be conducted over text or instant messenger, we suggest you don't discuss larger topics over text – but you may want to arrange/remind your mentee via text about your sessions

CC'd in emails

If mentees are being introduced to a contact over email, you will be copied in to ensure safety. You must continue to be copied into all correspondence.

Staying safe online

- Agree **platform together** before reaching out via a video call
- Keep video calls to the same **appropriate hours** that you would meet in person.
- Avoid video calling from your **bedroom**. If a bedroom is the only private space in the house, try and make your background as neutral as possible
- Do not allow or **engage in inappropriate** and sexual online communications
- Do not **record** the video call or take screenshots
- Do not have your **address** or significant personal details on show

Social Media

- Do not follow your mentee on social media. If your mentee adds you, then please decline.
- If you have a professional social media account and are comfortable with your mentee following you that is permitted, but please do not follow back.
- Please don't share pictures of your mentee on social media.
- We encourage mentors to share good news on social media but please do not use mentee's full name/face.
- Do not make plans on public forums.

Types of abuse

- **Physical** - causing physical harm to a child/failing to protect a child from harm.
- **Emotional** - persistent emotional maltreatment of a child.
- **Sexual** – forcing/enticing a child or young person to take part in sexual activity.
- **Neglect** - persistent failure to meet child's basic physical/psychological needs.

Signs of abuse

Signs of possible **physical abuse**

- Any injuries not consistent with the explanation given
- Injuries which have not received medical attention
- Bruises, bites, burns and fractures, for example, which do not have an accidental explanation
- Female genital mutilation

Signs of possible **sexual abuse**

- Allegations made by a child concerning sexual abuse
- The young person has an excessive preoccupation with sexual matters
- Sexually provocative or seductive behaviour with adults
- Suspicions about possible grooming

Signs of possible **emotional abuse**

- Depression, extreme anxiety, changes or regression in mood or behaviour
- Obsessions or phobias
- Sudden underachievement or lack of concentration
- Highly aggressive or cruel to others
- Running away, stealing and lying

Signs of possible **neglect**

- Dirty skin, body smells, unwashed, uncombed hair
- Clothing that is dirty, too big or small, or inappropriate for weather conditions
- Frequently left unsupervised or alone
- Untreated illnesses, infected cuts or physical complaints which the carer does not respond to
- Frequently hungry

What happens if there's a concern?

These five principles outline what should happen in the event of a safeguarding concern.

- To **Recognise** a concern that a child or young person is being harmed or is at risk of abuse of harm.
- To **Respond** appropriately to a child or young person who is telling you what is happening to them.
- To **Refer** on concerns about safeguarding to the appropriate authorities which could be City Lions, children's social care or the police.
- To **Record** the concerns in accurate detail, including any subsequent action that has to be taken, all the actions have to be done in a timely manner within the specified timescales to ensure there is no delay. Whilst the safeguarding procedures specify timescales these are the 'maximum' time limits, it is better to respond, refer and record as soon as you can when receiving the information
- The **Resolution** and escalation, City Lions have a responsibility to ensure that any concerns are followed up and will take further action if it considers that sufficient protection has not been offered to a child or young person

If a disclosure is made

- **Listen** carefully and actively to your mentee. At this stage there is no necessity to ask questions. Let them guide the pace.
- **Do not show shock** at what you are hearing. This may discourage the mentee from continuing.
- **Do not investigate.** If you need to clarify what is being said and whether the mentee is at risk, ask open questions (what, when, who, how, where, do you want to tell me anything else?) But only to the point of clarification being achieved. Avoid the question 'why?' as this can imply guilt / responsibility on the mentee.
- **Stay calm** and reassure your student that they have done the right thing in talking to you.
- **Never promise to keep a secret** or confidentiality.

Reporting a disclosure

- You have a duty to ensure the information is passed on to City Lions within 24 hours. We will then liaise with the relevant authorities or the school/college in order to keep your mentee safe. Wherever possible City Lions will seek consent from your mentee to share information with the authorities.
- If you believe that a **young person is at a high risk of harm** and/or the matter requires urgent attention outside of office hours (Mon-Fri, 9am-5pm) you additionally need to contact **Westminster City Council's Safeguarding Team**.
- **Record factually** what the mentee has told you / what you have observed ASAP. Ensure records include the date, time, place of disclosure, behaviour and words used by the mentee.
- The information should remain **confidential** to those who 'need to know'.
- City Lions will help to ensure that you are supported in managing the information you have received.
- **IF there is a risk of immediate danger** to a young person you should contact the relevant emergency services immediately.

During a session you explore the support your mentee receives, as a result their relationship with their family comes up.

Your mentee then says **“I hate my stepdad. He has done things to me that make me so angry!”**

How should you respond?

Safeguarding Scenario 2

Your mentee has considerable visible bruising down one of their arms, you ask them how it happened, and they say they don't want to discuss it.

How should you respond?

Safeguarding Questions?

Mentoring & Mental Health

- If your mentee discloses a mental health issue, the important thing is to **listen** to them, without passing judgement or asking leading questions.
- There are more resources on this in **Mentor Handbook**.
- Please let your mentee know they can speak to their GP or contact one of the recommended organisations - **Mind** and **Kooth**.
- If you are concerned, please get in touch – we can support!

If your mentee is struggling

- Don't blame yourself
- Most mentoring relationships have ups & downs
- Review mentor pair agreement

- Mentee **communication** can slow when overwhelmed *i.e. Exam time, family situation.*
- Contact City Lions team, we work closely with schools & can offer **help!**

Setting Expectations

- City Lions encourages all pairs to build a **professional friendship**, built on honesty, trust and mutual respect.
- Mentor pairs should understand that what is discussed during mentoring sessions* should be kept **confidential unless a mentor believes a mentee is at risk of harm**
- Mentor pairs should **respect each other's time** and be punctual for mentor meetings
- If a meeting needs to be **cancelled** there should be a valid reason with as much notice given as possible
- Pairs should decide on the **best means of communication and method of meeting**. This should be mutually convenient.
- It is important for pairs to **look out for emails** from your mentor/mentee, making sure you reply promptly
- **All communication between sessions should be made via email and text but not over social media or public platforms.** You should respect each other's boundaries being aware to only contact each other at appropriate times (e.g. not before or after 8am/8pm)
