

Black Lives Matter – Black lives history

Take a moment, to look around you
Look for the black, who may look blue,
Why so sad?
Why, what have we done that's so bad?
Well, put this large scale
From New York to Maida Vale,
And may the reason lie before you.

Protests in the US,
Sharpeville brought a bloody mess.
The agonising march to Selma,
Led by Martin Luther King, Jr.
Are a few of many examples,
Which may be used as samples,
To the wide-scale rate of racism.

Nelson Mandela
Martin Luther King, Jr.
Heroes lie in the heart of history.
Black vs White battles resulted in both losses and the occasional victory.
And these racist battles of the past continue today,
So, all their victories and wins weren't worth a "hooray!"
Though their quotes and resilience echo still, through history.

George Floyd Killed in 2020, terrible start for the new decade.

Police are now known to take the mickey,

Statues are taken down by the fighting public

And this is all countries, democratic and republic.

To compensate for this violence, a saying shall stand out,

People around the world will continuously shout,

BLACK LIVES MATTER
