# DEPARTURES

Presented is a fragmented wave created from the shadows of a discarded fishing net. The wave depicts how we ebb and flow through the Pandemic both emotionally and physically. Narrating the physical restrictions and incarceration of Lockdown and how this affects us mentally. The contortions of the wave symbolise our struggles individually and collectively. Ultimately, the shadows represent the Departure of the many souls who lost their fight against COVID as they slipped away through the safety of the net - R.I.P.
